

about **PROJECT PROPEL**

Our mission at Project Propel is to enrich vulnerable populations through education, health promotion, and sustainable livelihood opportunities while nurturing respect for our Earth.

Our current work is focused in Manila, Philippines and its surrounding areas. Manila is a bustling metropolis of more than 12 million people, and is widely known as one of the most densely populated cities in the world.

Philippines has one of the fastest growing economies in the region, but challenges remain when it comes to health and education. This is especially true for the 1 in 4 Filipinos which live below the national poverty line. In addition to those challenges, the Philippines is located in the Typhoon Belt and the Pacific Ring of Fire, making it susceptible to earthquakes, typhoons and volcanic eruptions.

Project Propel has been in the Philippines since 2012 working hand in hand with communities to tackle these issues. We continue to engage and empower vibrant leaders through educational, sustainable, and environmentally responsible programs.

OUR PROGRAMS

URBAN "BARANGAY" GARDENS

Encouraging communities to eat healthier and more affordably by growing their own vegetables.

FRESH PERSPECTIVES

Art and writing workshops giving an avenue for stories, voices, and expression to children and youth.

ECO-WINGS

A livelihood program for women in our communities, producing eco-friendly menstrual pads.

MOBILE HEALTH CLINICS

Using unique forms of transportation to provide much-needed health services.
